

**VANI** INDUSTRIAL  
INNOVATIONS

# PRECISION, PERFORMANCE, PARTNERSHIP.

At Vani Industrial Innovations, we empower Indian industries with performance-driven materials sourced from globally recognized brands. With decades of expertise in engineering distribution, Vani supports OEMs & component manufacturers with reliable supply chains, technical know-how, and hands-on service.

Our strength lies in understanding the complexity of Indian manufacturing needs and pairing them with the right material and technical solution. With a future-focused approach, we help industries build products that last, perform, and lead.

## **Vani** **Delrin®** **Engineering Confidence**

As a trusted distributor of Delrin®, a flagship acetal homopolymer, Vani offers a material solution built for strength, precision, and durability. Delrin® is known for its rigidity, fatigue resistance, and dimensional stability, making it ideal for mechanically demanding parts.

Vani ensures this globally trusted engineering plastic reaches Indian industries with speed, service, and support. From selection to supply, our team brings product insights and processing guidance to help clients get the most out of Delrin®.

## Acetal Homopolymer

Delrin® delivers exceptional performance in wear-critical, load-bearing, and precision-machined components. Its unique combination of strength and low friction makes it the material of choice for high-load applications.

### Industries Served

- Automotive
- Electrical & Electronics
- Powertrain & Thermal
- Material Handling
- Industrial Equipment
- Healthcare
- Medical Devices

### Special Characteristics

- Bio-based
- Light stabilised or stable to light
- Low warpage
- UV stabilised or stable to weather
- Low wear / Low friction
- Ultrasonic weldable
- Low emissions

### Innovative Product Family

Product	Features
Delrin® 100	Offers high stiffness and strength, ideal for mechanical components.
Delrin® 500	Balances toughness and machinability, commonly used in gears and bearings.
Delrin® 900	Enhanced impact resistance, suitable for applications requiring durability.
Delrin® Renewable Attributed	A sustainable version made from bio-feedstock, maintaining the same performance as traditional Delrin.

For any specialized applications requiring precise material selection, feel free to reach out. We can help identify the most suitable Delrin® grade for your specific requirements. Let's find the perfect fit for your needs!
